

# Are you interested in learning more about controlling your diabetes?

**You may receive up to \$150 gift cards for your participation**

The research team led by Dr. Lu Hu at NYU Langone Health is conducting a study to understand whether an evidence-based diabetes education program can help Chinese Americans or Immigrants manage their diabetes. Are you interested in learning more about controlling your diabetes?

## **If you:**

- ✓ **Are a Chinese American/Immigrant between 18-70 years old**
- ✓ **Have type 2 diabetes**
- ✓ **Have a recent HbA1c greater or equal to 7%**

**You may be eligible to participate. Please call Dr. Lu Hu at (347) 380-2416.**

*You will receive brief diabetes education videos and finish a brief survey with the study team at the beginning of the program, 3 months, and 6 months later.*

Your participation will help us design a WeChat-based diabetes support program to help people like you to better manage their diabetes.
