

HFNY NEW HIRE TRAINING CHECKLIST

We offer this list as the recommended order of first-year trainings to help you develop a training plan for new direct service staff*. Because training options may be limited by circumstances, such as when trainings are offered in relation to hire dates, the order in which staff take the trainings is somewhat flexible. There are many training requirements at the beginning your time with Healthy Families. It is recommended that you take advantage of the full first year and space out the trainings as much as possible. This will ensure that you have time to process the information from each training, apply it to your work with families, and review it with your supervisor. It may be tempting to complete all of the trainings in a short period of time but this will reduce your ability to retain the information and implement it as intended. A brain that is not overwhelmed will be much better able to take in the content of the trainings.
