

*Interested in Learning More about **COVID-19 Testing and Vaccination?***

NYU Grossman School of Medicine and Harlem Congregations for Community Improvement, Inc. are offering COVID-19 testing and vaccination assistance for NYCHA residents in the Harlem community.

As part of a research study, we are inviting residents in the Polo Grounds and Ralph J. Rangel houses to meet for about 30 minutes with trained community health workers to answer questions regarding testing, vaccination, and other COVID-related resources available in your community.

Polo Grounds and Rangel Residents:

If you are interested in speaking with a community health worker about COVID-19 testing, testing options in your community, vaccination, and other COVID-19 related issues:

Call our Community Health Workers at (929) 455-6582
