

# *Interested in Learning More about **COVID-19 Testing and Vaccination?***

NYU Grossman School of Medicine and CAMBA, Inc. are offering COVID-19 testing and vaccination assistance for NYCHA residents in the East New York community.

As part of a research study, we are inviting residents in the Louis Heaton Pink Houses and Cypress Hills Cornerstone houses to meet for about 30 minutes with trained community health workers to answer questions regarding testing, vaccination, and other COVID-related resources available in your community.

## **Pink and Cypress Hills Residents:**

If you are interested in speaking with a community health worker about COVID-19 testing, testing options in your community, vaccination, and other COVID-19 related issues:

Call our Community Health Workers at (929) 455-6582
