

Project RICE Intervention Screening Questionnaire

To be filled out by the Interviewer: Interviewer Initials: _____
 Date: _____ Diabetes Risk Score: _____
 Time: _____
 Location: _____ Eligible? YES _____ NO _____

The purpose of this form is to determine eligibility to participate in the Project RICE Intervention.

Part I: Diabetes Risk Assessment (American Diabetes Association)

You must be at-risk for diabetes in order to participate in this study. We can determine this based on the following questions and your body mass index (BMI)*.

*BMI refers to a number calculated from a person's weight and height. This provides a reliable indicator of body fatness for most people and is used to screen for weight categories that may lead to health problems such as diabetes.

Score 5 points or more?

☐ **Yes** – At risk for diabetes and may be eligible to participate in Project RICE: **CONTINUE SURVEY**

You are at increased risk for having type 2 diabetes. However, only your doctor can tell for sure if you do have type 2 diabetes or prediabetes (a condition that precedes type 2 diabetes in which blood glucose levels are higher than normal). Talk to your doctor to see if additional testing is needed. Type 2 diabetes is more common in Asian Americans.

The good news is that you can manage your risk for type II diabetes. Small steps make a big difference and can help you live a longer, healthier life. This program may be able to help you.

☐ **No** – Probably at low risk for diabetes and not eligible to participate in Project RICE: **END SURVEY**

Thank you for taking the diabetes risk assessment. The good news is that you are probably at low risk for diabetes. You are not eligible to participate in this program at this time. Please take this information on diabetes prevention. Also, if you have any friends or relatives who may be interested in this program, please have them contact me. My contact information is listed on the flyer.

Part 2: Study Eligibility

If you scored 5 points or more on the Diabetes Risk Assessment, this form will help us determine if you are eligible for the study. If you are eligible, you will have the option to learn more about the study and sign a consent form to participate now, or to provide your name and contact information on a sign-in sheet. We will then contact you with further information regarding the study.
