

Participate in a Research Study!

What's it about?

We want to learn more about the health and social service needs of **Community District 3 residents** and study whether our **community health worker program** was helpful.

Why participate?

- **Help us learn** more about the health of your building.
- You will be **helping yourself and your neighbors**.
- Receive **money** for your time and participation.

What's involved?

Answer questions about yourself:

- Basic personal & health information
- Housing problems & social support
- Alcohol & drug use
 - **The survey will take 30-40 minutes**
 - Later, researchers will look at databases that contain information about your doctor visits and use of hospitals.
 - Some residents will also be asked questions about their experience with the community health worker program and/or to participate in a small group discussion

All of the information you provide will be kept **confidential**.

You do NOT have to participate in the study if you don't want to!

- **You can stop participating at any point.**
- **You can say no** to any question that you don't want to answer.

Possible Risks & More Information

- **Some questions may upset you.**
- Your **privacy** could be lost by mistake.
 - We'll do our best to keep your personal information private and safe.
- The study might not help you directly.
