

NYU Managing Epilepsy Well Study

If you are an adult with epilepsy, you may be eligible for a research study. The purpose of this study is to test two telephone-based group programs (BOOST and UPLIFT) to see whether they improve mood, quality of life and seizures. All study visits are done by phone or online. You will be compensated for your time if you are eligible and choose to participate.

Please contact the study team for more information:

MEW@nyulangone.org or (917) 887-1277.
