

## Liverpool Seizure Severity Scale 2.0

So we can better understand the severity of your seizures, please complete the following questionnaire thinking about the *most severe seizure* you experienced during the past 4 weeks. (This may be different for each individual, but is based on your most severe seizures over the past 4 weeks.) Your responses are a very important part of this study and will be kept strictly CONFIDENTIAL. No one but the research staff will see your responses. If results of this study are published, only aggregate data will be used; names and any other identifying information will not be reported.

How many seizures have you experienced during the past 4 weeks?

\_\_\_\_\_ seizures

Note: Please enter '0' if you have not experienced any seizures in the last 4 weeks and do not complete the remainder of the questionnaire. If you cannot remember the exact number of seizures you've experienced, please estimate based on the number you usually had during a single day or week.

Please answer each question based on the most severe seizure you have experienced in the past 4 weeks.  
Circle only one answer for each question.
